

Mattress Bag Sealer MBS-210

Fincorp Engineering produces a wide variety of Mattress Processing Equipment. Among them is the Automatic Mattress plastic bag cover sealer. For welding and cutting of 220 cm wide plastic film up to 100 micron thicknesses.

This machine is ideal for packaging mattresses. The sealed bag protects and gives the mattress a professional and attractive look. Both the sealing and the cutting is performed by heat wires which are protected by *Teflon*® cover.

General Specifications

- Mattress capacity 50-190 cm wide, 8 to 30 cm.
- Speed: up to 4 mattresses per min.
- Two 220 cm welding wires: One for welding and one for cutting and trimming
- Adjustable weld pressure. Max. Film thickness 100 micron
- Automatic Controls with weld and cut timer settings.
- Overall Dimensions: 2500x800x1100mm 140 Kg. (100x32x43 in. 300lbs)
- Power requirement: 220 V. 50 Hz. 1 Ph. 5 Amp.
- Air requirement: 60 Liters/hr @ 6 Bars. (80 psi)
